

Ms. Daniels,

I wonder if you would email me the solutions to the extra credit problem. I think it would be very instructive when I study for the CPA exam to understand how to "peel off" figures from financial statements and put them into IRS forms.

I'd like to thank you for a great course. I really appreciated having the solution key to the exercises because it allowed me greater depth of understanding and skill to applying problems to chapter material. It also was a great stress reliever to be able to check my thinking and get quick feedback. Your essay tests and quizzes were still very challenging - even with the solution keys given for homework. I wish other instructors had the same philosophies as you do. I also appreciated the length of quizzes and exams (although for the exams I did run out of time; think I'm a slow processor when it comes to organizing written thoughts).

Also I really appreciated your quick response to questions asked on the Angel format. Some instructors aren't very forthcoming (at all for online courses) with feedback. And I appreciated your leniency with deadline (I'm a single mom). Lastly, I thought the text was great. It had nice, easy to understand terminology and examples.

Thanks again!

Van
