

North Seattle College Student Leadership Application Packet for 2016-2017

Dear Student,

Like you, I was once an aspiring student taking classes at a community college. In fact, I attended several community colleges before I eventually transferred to Humboldt State University and completed a bachelor's degree. While I was a student, I participated in campus clubs where I connected with other like-minded students and made friends that gave me a sense of belonging. When times got tough, and classes got harder, it was those relationships that kept me in college.

While I was interested, I never applied for a position in Student Leadership. Back then, I thought Student Leadership was for "leaders" – not an ordinary student like me; but I was wrong. Student Leadership is for any student who is willing to commit themselves to their own personal and professional development and growth; growth that comes through hard work and a willingness to learn, trust, and support a team of co-student leaders and staff advisors. If you are willing to make this commitment then I encourage you to apply for a position in Student Leadership today!

As an employee in Student Leadership you will be provided with training, opportunities, and experiences that will not only prepare you for your work as a student leader but will also instill in you new skills and know-how that will promote your future success. In the words of Vince Lombardi, *"Leaders are made, they are not born. They are made by hard effort, which is the price which all of us must pay to achieve any goal that is worthwhile."* Should you choose to apply for a position and to commit yourself to a year with Student Leadership, then you will find that I, along with the other Student Leadership advisors, commit to both challenging and supporting your leadership growth and future success!

All the best,

Jeffrey Vasquez
