June 1: Identity Exploration Through Art

We are complex people, all living at various intersections of identities. This will be a chance to do art, or participate in a facilitated identity mapping activity with a community of students in which we can safely discuss our identities.

Come to room **CC3446** from **12:00—2:00pm** on **Wednesday June 1**. Join us in drawing and writing about our journeys and identities as a way to foster discussion about who we are and how we fit into this world.

Hosted by the Feminist Alliance and open to all students. If you have questions please email nscaskafeminist@gmail.com.
