NSCC News & Events System Overview

Some people will have dual roles

News Contributors
Create new content items for use by Feed Owners

Feed Owners
Aggregate apropos content items for their constituents

News Sources

Individual content items are entered into news repository from news source

News Repository

Content items are stored in database

Items are pulled from database...

Screensaver

Library News

Traffic Reports

...and grouped into news feeds for specific topics or audiences

Feed subscribers are automatically informed of news items...

...using whatever means each subscriber prefers
